Adani group's Ebitda may go past ₹1 trn in FY25 on infra, power biz

Cement, power, and green energy expected to contribute 86% to growth

DEV CHATTERJEE
Mumbai, 26 August

Adani group is on track to surpass a combined Ebitda (earnings before interest, taxes, depreciation, and amortisation) of ₹1 trillion in the ongoing financial year (FY25) as it prepares for a \$2 billion (over ₹16,700 crore) share sale by its flagship entity Adani Enterprises next month, according to a source close to the matter.

For the financial year ending March 2024, the group reported a combined Ebitda of ₹82,917 crore, according to a presentation made to the bankers. This significant increase is anticipated due to the growth in its core infrastructure sectors, bolstered by recent acquisitions of Penna Cement and Sanghi Cement. The group's cement, power, and green energy businesses

are expected to contribute 86 per cent to this year's Ebitda.

Across its 10 listed companies, the Adani group is investing nearly \$15 billion (₹1.2 trillion) in the current financial year, raising equity funds to support these initiatives. Over the next decade, the conglomerate plans to invest an additional \$100 billion (₹8.3

trillion) in various infrastructure projects, with a detailed funding strategy already in place, according to senior company executives.

To attract investors, the group is conducting road shows globally. Last week, the promoter family sold a minority stake in Ambuja Cements as part of their portfolio rebalanc-

ing efforts and may consider selling an additional 3 per cent in Adani Power.

In terms of debt exposure, data reveals that Indian lenders have increased their exposure to the Adani group over the past year. Prominent public sector banks, including State Bank of India, REC, PFC, Bank of Baroda, Union Bank of

India, and Canara Bank, as well as private banks like Axis Bank, ICICI Bank, and HDFC Bank, have extended funds for various projects. The group's net debt decreased to ₹1.81 trillion in the financial year ending March 2024, down from ₹1.86 trillion in FY23.

Among its companies, Adani Power is actively acquiring major electricity generation projects. It has emerged as the highest bidder for KSK Mahanadi, a bankrupt power firm, with an offer of ₹27,000 crore. Additionally, it is in the process of acquiring Lanco Amarkantak for ₹4,100 crore, and is negotiating the purchase of Vidarbha Power.

Shares of Adani Enterprises closed at ₹3,068 a share on Monday, up by 7.7 per cent since January this year. The benchmark BSE Sensex is up 26 per cent this year since January.

Offers to 2022 batch freshers to be honoured, says Infosys CEO

Infosys CEO Salil Parekh (pictured) has indicated that offers given to freshers will be honoured by the company and followed with joining, although there has been some change in dates.

The comments of Infosys top honcho assumes significance amid reports that the company has delayed onboarding of 2,000 fresh engineering graduates from 2022-batch. "Every offer that we have given, that offer will be someone who will join the company. We changed some dates but beyond that everyone will join Infosys and there is no change in that approach," Parekh told PTI in response to a question on reported delays in onboarding of 2,000 fresh engineering graduates for two years.

The Bengaluru-headquartered IT company has an overall

employee base of 315,332 as on June 2024. Recently, IT and ITES union National Information Technology Employees Senate (NITES) had filed a complaint with the Ministry of Labour and Employment against Infosys for delaying the onboarding of 2,000 engineering graduates selected for system engineer and digital specialist engineer roles during the 2022-23 recruitment drive.

"These graduates, after being issued offer letters as early as April 2022, have been subjected to continuous delays in the onboarding process, unpaid pre-training programmes, and unexpected additional assessments. Despite fulfilling all requirements on their part, these professionals have been kept in limbo for more than two years." NITES had said.

UltraTech raises \$500 mn via sustainability loans

UltraTech Cement on Monday said it had successfully raised \$500 million through a sustainability-linked loan with participation from six banks.

The transaction marks the second sustainability-linked financing raised by UltraTech, subsequent to its inaugural sustainability-linked bond issuance in 2021, the company said in a statement.

"This financing signifies UltraTech's ongoing commitment to align its funding strategy with its sustainability and ESG goals," it said.

Sumitomo Mitsui Banking

Corporation (SMBC) acted as the sole sustainability coordinator for this transaction and served as the sole advisor on UltraTech's Sustainability-Linked Financing Framework.

Lenders for the transaction include SMBC, SBI, BNP Paribas, DBS, MUFG and Mizuho.

The Sustainability Performance Targets (SPTs) include reduction of scope 1 emissions, measured in kgCO₂ per tonne of cementitious material (kgCO₂/t.cem), by 27 per cent by March 31, 2032, from a FY17 baseline.

Vedanta readies ₹30K cr to reduce debt, aid growth

Anil Agarwal-led Vedanta Ltd has prepared a war chest of ₹30,000 crore with recent funds raised through a qualified institutional placement (QIP), offer for sale (OFS) and dividend to pursue further deleveraging and growth, sources said.

Proceeds from the ₹8,500-crore QIP of Vedanta Ltd, HZL's OFS of ₹3,200 crore, and ₹5,100 crore from the second interim dividend, coupled with existing cash reserves of ₹13,000 crore, will lead to the creation of a ₹30,000-crore war chest after the company receives all the funds, sources said.

Vedanta may deploy this war

chest for accelerated deleveraging of its balance sheet, improving capital structure, development of its transformational projects paving the way for its near-term \$10-billion Ebitda target and pursuing inorganic opportunities, an analyst said.

Vedanta continued to deliver strong quarterly numbers. For the first quarter, profit after tax grew 54 per cent year-on-year (Y-o-Y) and more than doubled on a quarter-on-quarter basis to ₹5,095 crore.

The company recorded highest-ever alumina production at Lanjigarh and mined metal product at the Zinc India unit.
